9031423100 | alkagupta1566@email.com | linkedin.com/alka-gupta-351bb9345

PROFESSIONAL SUMMARY

Detail-oriented Master of Computer Applications (MCA) student specializing in Frontend Development and Software Engineering. Proficient in Java, JavaScript, React.js, HTML5, CSS3, and core computer science fundamentals. Demonstrated success in building responsive web applications and designing intuitive user interfaces through competitive hackathons and projects. Actively refining skills in Data Structures and Algorithms (DSA) to deliver optimized software solutions.

EDUCATION

GNIOT Institute — MCA

Aug 2025 – Present

Greater Noida, India CGPA: 8.78 / 10.00

A.N College — BCA

Jul 2022 – Jul 2025

Patna, India Score: 71.8%

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, C++

Frontend Web Technology: React.js, Tailwind CSS, Bootstrap, HTML5, CSS3, ES6 JavaScript

Tools & Platforms: Git, GitHub, Postman, Android Studio, VS Code, Salesforce CRM

TECHNICAL PROJECTS

PhotoNova – Photography Portfolio Platform

2026

Frontend Developer | HTML5, CSS3, JavaScript

- Designed and engineered a responsive photography portfolio application utilizing semantic HTML5 and CSS layouts.
- Implemented cross-device compatibility, optimizing assets to ensure a 100% responsive design across all screen sizes.
- Integrated custom JavaScript interactions to deliver seamless UI navigation and enhance client-side interactivity.

Real-Time Hospital Tracker – Healthcare Management Platform

2026

UI/UX & Frontend (Hackathon Project)

- Collaborated in a fast-paced environment to build a healthcare concept connecting users with localized emergency medical services.
- Architected functional user interfaces for a real-time hospital search engine, doctor scheduling, and symptom checker.
- Utilized modular CSS and JavaScript to minimize DOM overhead, improving front-end execution and interface response times.

Spotify UI Clone – Music Streaming Web Application

2025

Frontend Developer | HTML5, CSS3, JavaScript, Bootstrap

- Replicated the core experience of Spotify, building clean, scannable layouts using the Bootstrap grid framework.
- Programmed core media player controls and interactive state management utilizing vanilla JavaScript event listeners.

DigiRest Care – Digital Safety Awareness Mobile Application

2025

Android Developer | Java, XML, Android Studio

- Developed an Android application focused on identifying and preventing digital arrest scams and financial cyber fraud.
- Structured user-friendly mobile navigation workflows to convey critical preventative guidelines and legal safety data.

INTERNSHIPS

IBM SkillsBuild | *AI & Cloud Computing Intern (Virtual)*

Jul 2026 – Present

- Acquiring training in cloud infrastructure deployment, Artificial Intelligence models, and scalable technical pipelines.

Innoknowvex | *Java with DSA Intern (Virtual)*

Jun 2026 – Present

- Solving algorithmic problems using Java to optimize code execution time and space complexity with advanced data structures.

Salesforce | *Salesforce CRM Administration Training*

Jul 2026 – Present

- Gaining expertise in Salesforce architecture, standard data object configuration, and security access workflows.

CERTIFICATIONS & ACHIEVEMENTS

- CodeRush Certification – HackerRank Problem Solving**
